Origage Graphics Software is a more easy tool to use that can help you To create an organizational table designed professionally even if it does not. T has some skill or designer experience. Those with the highest position are placed on top and all departments and subordinate staff fall below them one level at a time, forming the shape of a pyramid. Venanage is still the best option between the two. Since each form will represent a person in the organization, we recommend first organizing their data to ensure that all are taken into account. But create one that should not be slow, as I would do it if I did one in Excel. Unlike Excel, Vennage can provide many organization graphic templates for various cases of use and industries, which gives you more flexibility and convenience. You can use it as a reference for your own non-profit organization: 3. Step 3: Expand the GRAPH OFG. Add more boxes and levels according to it Until all departments and employees are included. included. included.
